

zakaat math

Print our pocket. Fold in sides and back.
Print out hand cards.

how do we measure a saa'

One saa' consists of four amdadd (plural of mudd). A Mudd is equal to one handful using two hands cupped together of an average sized man.

Explain the measurement of a saa' to your child to help them understand.

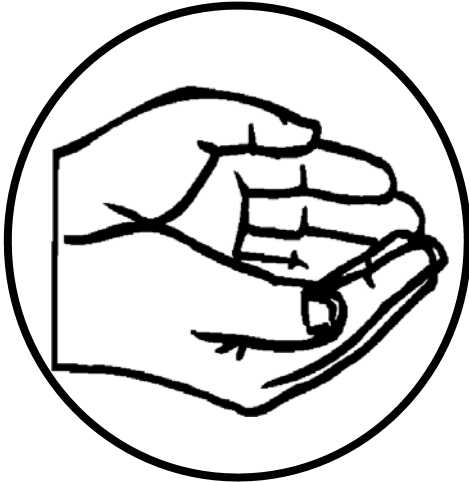

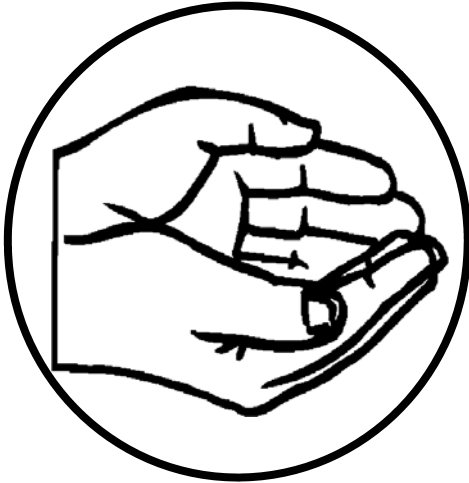

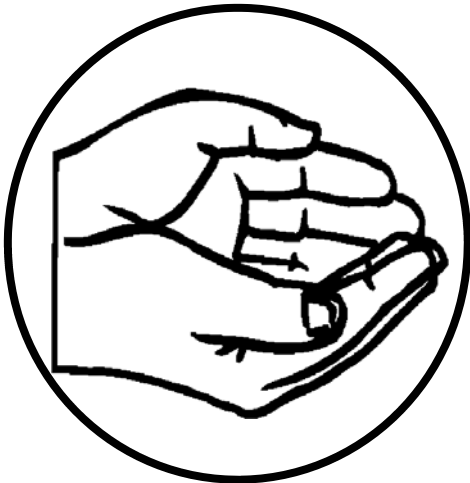

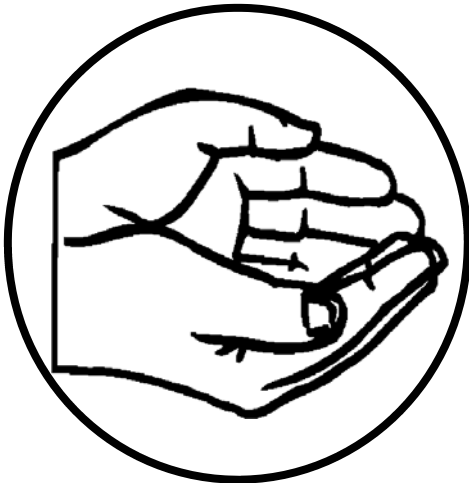

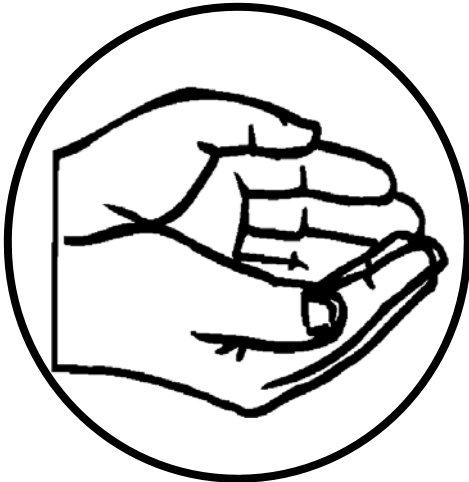

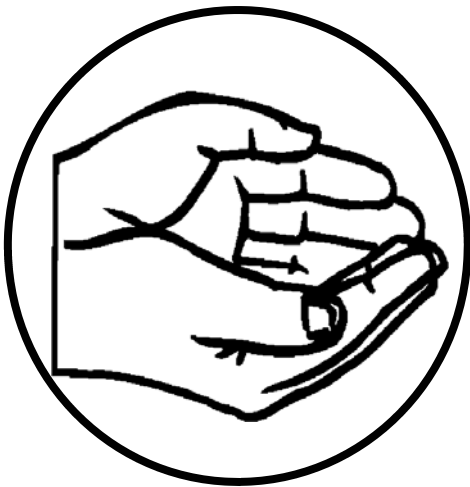

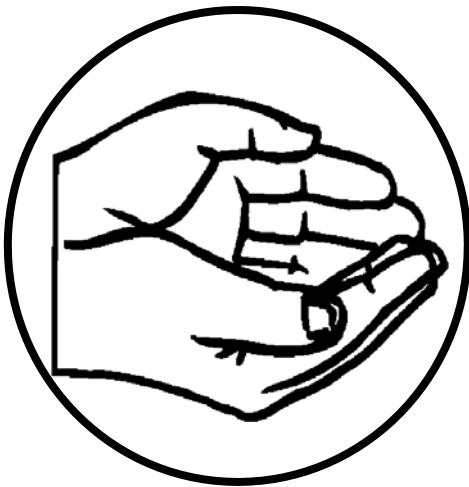

Ask your child questions like:

How many handfuls would it take for one person to pay Zakaat ul-fitr?

How many handfuls would it take for our entire family to pay Zakaat ul-fitr?

Use the hand cards to count how many it would take to pay Zakaat ul-fitr

You can use addition for younger children and multiplication for older children.

Print as many pages as you need for counting.
