CARDS**

GAME INSTRUCTIONS

Cut out all the game cards on card stock and fold over so there will be a front and back of the card.

Match the Game board pieces together by cutting one end to join other and use tape or a small amount of glue to join together as one board piece.

Assemble the spinner by placing a brass fastener in the middle.

Place Game Cards in the designated area of the board.

Choose first player by either age or use the spinner and whoever spins the highest goes first then the player to the Right next.

Move the correct number of spaces according to what number you have spun.

Choose the card that the space prompts you to and answer the question. Hand the card to the player on the right and have them ask you the question on the card, if answered correctly then you receive that many points. Answer it incorrectly and no points. That will be a question they will later need to research to find the answer insha Allah.

Keep score of players points and whoever has the highest amount of points in the end comes in first place and the one with the score underneath them is second place, so on so forth.
